

Toppers Speak ...

How I did it?

Hard work. Hard work is the most important ingredient. Consistent and proper hard work makes one achieve his goals. And not only the hard work from the child, but also from his parents and mentors. The people around you also make a significant difference. ~~They can do~~ These all can make or break your break future. The only thing I thought in those last four years was my dream. That is. Having a proper goal and thought process also affects you. I only believed in my parents and mentors, and I think they put me in the right path, by admitting me in FIT-JEE in class 7, and then going forward with their great help series.

After all, ~~it is not only you~~ you alone cannot crack these exams by just your hard work. I thank my parents, my friends and my mentors for not only helping me, but also for staying till the end in my journey.

And, Don't forget believing in God in every step, as he defines every thing.
