

## Toppers Speak ...

### How I did it?

Achieving a good rank in IITJEE requires a lot of hardwork, determination and dedication. Time management and a good study material is instrumental to that. Therefore I chose FIITJEE. FIITJEE's study material is up-to-date regarding the latest trend of IITJEE. It contains a lot of questions for practice which helped me in building my concepts, as it mainly focuses on fundamentals. The AITS removed the fear of the day when JEE would take place. The questions are very good, especially Physics. It has the perfect blend of fundamental as well as tough questions. I used to devote maximum of my time on studies especially the period from 9-12 noon and 2-5 pm. FIITJEE also recommends the same. In the end, I would like to thank FIITJEE for helping me in getting a good rank in JEE-2016.
