

Parents Speak

We always wish our son SUSHANT must do his technical education from premier technical institute of INDIA, like IIT'S. As we both engineers, we know the value and vision come from education in IIT'S

SUSHANT fulfill our wish like dream journey in his academic carrier by securing

AIR 83 in JEE advance-2016.

During discussion with parents and students who successfully got admission in IIT in year 2013 & 2014, we understand that only one classroom coaching is not enough to crack the JEE-ADVANCE. After discussion we come to conclusion that FITJEE correspondance program/ test series is must to test the sushant's all india ranking on regular basis and level of understanding in each topic on all india basis. And Hence we opt for ALL INDIA TEST SERIES of FITJEE.

As SUSHANT study for JEE-ADVANCE, he always keep on giving different competitive exams like RMO, KVPY, Olympiads. This help him in all round understanding of subject and also immediate target for success. He scored all india rank 57 in KVPY and Top 1% student in Physics, Chemistry & Astronomy. FITJEE AITS help him immediate analysis of his weakness & he focus on question / topic which he unable to answer.
